DETAILED ACTION

Allowable Subject Matter

Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 19 state the limitation "heat-shrinkable member disposed within the printed circuit board assemblies". This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art. Claim 7 states the limitation "wherein said component is assembled on one side of said printed circuit board and said retaining member is substantially adjacent to an opposite side of said printed circuit board". This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art. Claim 8 states the limitation "wherein said printed circuit board is disposed substantially between said retaining member and said component". This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art. Claim 11 states the limitation "wherein said heat shrinkable member is configured to resist decomposition at a temperature that is greater than a typical reflow temperature". This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art. Claim 16 states the limitation "wherein said heat resistant material is configured to remain functionally stable at a temperature that is greater than or substantially equal to a typical solder reflow temperature. This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art. Claim 18 states the limitation "wherein said

retaining member forms an aperture, said heat shrinkable member being disposed substantially within said aperture. Claim 23 states the limitation "a heat-shrinkable member, said heat-shrinkable member being coupled with a component assembled on a printed circuit board and being configured to receive at least one of said at least one coupling member via within an opening formed in said printed circuit board". This limitation, in conjunction with the other claimed limitations was neither found to be disclosed in, nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
